# **WEATHER KEY POINTS**

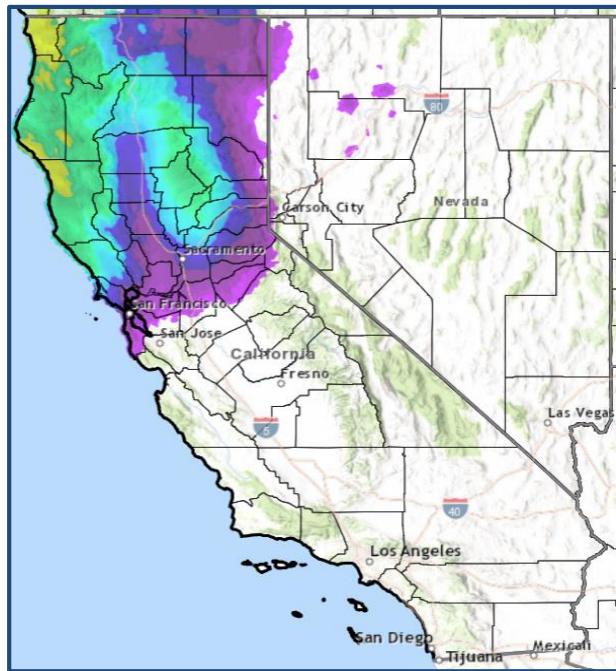

**03/14/22 - 03/20/22**

## **Monday-Sunday**

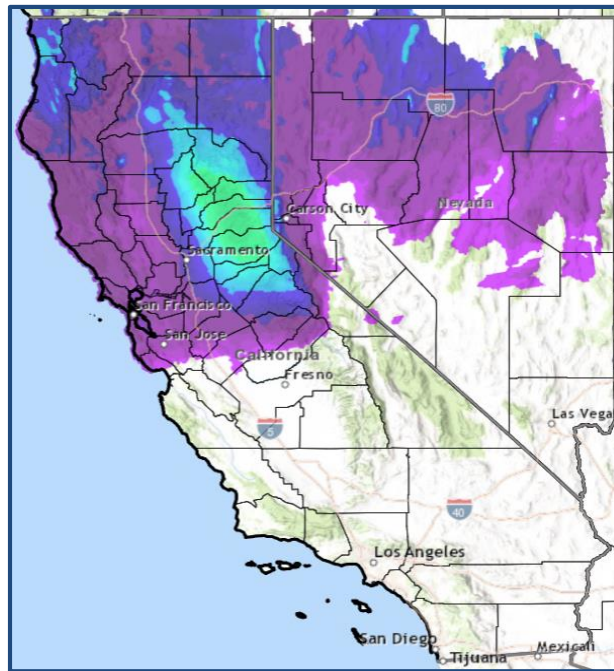

- Winds will become gusty again across far northern California late Monday night and Tuesday, with gusts of 45 to locally 55 mph expected.
- Additional gusty conditions will be noted across southern California Tuesday and Wednesday, particularly in the mountains on Tuesday and spreading into the Mojave Desert and foothills on Wednesday. With winds mainly onshore during this time, no significant fire weather concerns are expected.
- The next round of rain and high elevation snow will move across northern California Monday evening into Tuesday, bringing beneficial precipitation to areas mainly near and north of Interstate 80
  - Much of this precipitation looks to be light to moderate in intensity, with amounts of one-quarter inch or less for the Sacramento Valley and Bay Area, and localized amounts of 1 to 2 inches in the mountains. Very little or no precipitation is expected for the San Joaquin Valley or southern California.
  - Snow levels will be much higher with this storm, rising to between 7,000 and 8,000 feet
- Temperatures will become quite warm by mid March standards over the southern California deserts Tuesday and Wednesday, with readings approaching 90 degrees in some areas.
- Gusty winds could again make a return for parts of the state into the weekend, with some additional precipitation also possible across mainly northern California either Saturday or Sunday
